

# Y1/2 Homework Booklet – Autumn Term 2 2017

In KS1, Children are expected to complete the following homework tasks every week to support their development in the core subjects. Thank you for your support in helping your child.

## **Reading**

Please listen to your child read and ask them questions to support their comprehension of the text. Record any reading/discussion that you do in your child's reading diary for their class teacher to see.

Children are expected to read outside of school a minimum of five times a week. Diaries are checked in class weekly.

## **Spelling**

Y2: Your child will have a spelling list to learn every week. These will be sent home on a spelling sheet and be on the class webpage. Your child will not be given spellings to learn over half term breaks, in line with our homework policy. Y1: Please help your child to practise reading the phonemes that they are learning in phonics each week. (See section overleaf.)

## **Times –Tables and division facts**

By the end of Y2, children are expected to be fluent in their 2x, 5x and 10x tables and their related division facts (e.g. if  $2 \times 5 = 10$ , then  $10 \div 2 = 5$ )

Please practise these at least 5 times per week, but preferably daily.

## **Rapid Number Recall (RNR)**

In their reading diaries, children have their current RNR step stuck in, along with ideas for how you can help them achieve this target. Children are tested daily on this objective. When they answer each question correctly 3 times, they will move up a new step.

Please practise these at least 3 times per week, but preferably daily.

# Y1/2 common exception words

Although we teach children phonics to help them to accurately read and spell words using the phonics rules, we also need to teach the children the grapheme-phoneme correspondences that do not fit in with these rules (otherwise known as common exception rules). Please help your child to learn to read/spell these words accurately.

# Voluntary Homework

This half-term's homework challenge is to learn all about...

## OUR SOLAR SYSTEM

### SOLAR SYSTEM

This half term we will be learning about all things space related! From Neil Armstrong and the 1969 Moon landing to why the sun comes up in the east and sets in the west.

This homework challenge will help you put all that you will be learning to the test PLUS help you to learn about an aspect of space that you find particularly interesting!

You may wish to create a project on a particular planet or produce fact files about each planet in our solar system. You may even want to learn about a particular space mission or even create a project on Tim Peake! It is completely up to you! The universe is quite literally your limit!

**We will be showcasing all of our science work during an open afternoon for parents/ carers on Friday 15<sup>th</sup> December 2.30-3.15pm in classrooms.**

*Need help with how to set out this project? Please ask your child's class teacher!*

If you choose to do this piece of homework, please have your homework projects in by Wednesday 13<sup>th</sup> December in preparation for our KS1 Science showcase afternoon!
