

Y1/2 Homework

Booklet – Autumn 1

In KS1, children are expected to complete the following homework tasks every week to support their development in the core subjects. Thank you for your support in helping your child.

Reading

Please listen to your child read and ask them questions to support their comprehension of the text. Record any reading/discussion that you do in your child's reading diary for their class teacher to see.

Children are expected to read outside of school a minimum of five times a week. Diaries are checked in class weekly.

Spelling

Y2: Your child will have a spelling list to learn every week. These will be sent home on a spelling sheet and be on the class webpage. Your child will not be given spellings to learn over half term breaks, in line with our homework policy. Y1: Please help your child to practise reading the phonemes that they are learning in phonics each week. (See section overleaf.)

Times –Tables and division facts

By the end of Y2, children are expected to be fluent in their 2x, 5x and 10x tables and their related division facts (e.g. if $2 \times 5 = 10$, then $10 \div 2 = 5$)

Please practise these at least 5 times per week, but preferably daily.

Rapid Number Recall (RNR)

In their reading diaries, children have their current RNR step stuck in, along with ideas for how you can help them achieve this target. Children are tested daily on this objective. When they answer each question correctly 3 times, they will move up a new step.

Please practise these at least 3 times per week, but preferably daily.

Y1/2 common exception words

Although we teach children phonics to help them to accurately read and spell words using the phonics rules, we also need to teach the children the grapheme-phoneme correspondences that do not fit in with these rules (otherwise known as common exception rules). Please help your child to learn to read/spell these words accurately.

Voluntary Homework

This half-term homework challenge is to learn
all about our...

Light and Dark

As part of our 'Why is it so dark in winter?' topic we will be learning about daily and seasonal weather patterns and thinking about different sources of light.

Your challenge is to create a project all about light and dark. This could be a model showing how Earth gets light, a fact file on different sources of light, collecting weekly weather reports or even research on shadows. These are just some of many ideas for a project on light and dark.

Need help with how to set out this project? Please ask your child's class teacher!

If you choose to do this piece of homework, please
have your homework projects in by the middle of the
last week of this term.
